

Ear Science Education Hearing Implants Series 21/22

Join us for our Education Series on Hearing Implants designed to support clinicians in maintaining clinical excellence and optimised hearing care for all clients. This series will cover the cochlear implant journey with a focus on complex referrals and bimodal management.

Series one off fee of \$150 (incl GST) includes:

In-person Workshop 1 | 28 Oct 2021 5-7pm

in-person Workshop 2 | 26 May 2022 5-7pm

Exclusive access to bimonthly research updates, online.

This Ear Science Education Series has been designed for the busy clinician, offering a unique and flexible way to access over a third of your CPD points.

Workshop 1

Guiding your clients through the journey:
A practical approach to cochlear implants.

'Up to date with...'

Bi-monthly research updates that once uploaded, will be available for the duration of the Education Series.*

Workshop 2

Guiding your clients through the journey -
From saying 'yes', to rehabilitation and bimodal management.
