

ENT Consulting Sessions Available Subiaco – Western Australia

About Ear Science Surgical Facility

Ear Science Surgery is a state-of-the-art, patient-focused surgical facility in Subiaco, Perth. This innovative facility is located on the ground floor of Ear Science's corporate headquarters, which is co-located with the prestigious Subiaco Private Hospital at the George Jones Family Centre. We work with ENT surgeons who work independently and with complete clinical sovereignty, to provide patients with greater access to surgical solutions ensuring timely diagnosis and treatment.

This cutting-edge surgical facility is equipped with the latest state-of-the-art technologies and provides a comprehensive range of diagnosis and treatment options for ENT conditions, with a commitment to placing the patient at the centre of its care.

This is an exciting opportunity for an ENT looking for sessional space in a very busy surgical facility with a well-established referral base.

- Clinic sessions available Monday-Friday, depending on requirements
- Friendly and supportive onsite administration and audiology team
- Fully equipped consulting rooms, including ENT treatment equipment (ATMOS), light-source, microscope, nasoscope and audiology booth
- Privately billed consulting
- Dictaphone and typing service fully provided
- On-site doctor parking

Ear Science Institute Australia is committed to enhancing the lives of those living with ear and hearing disorders. Its comprehensive, and research-led ear and hearing services are backed by 20 Lions Hearing Clinics located across Western Australian seeing 42,000 people annually to provide a seamless journey from diagnosis to treatment for hearing loss and ear disorders.

Applicants must be a Fellow of the Royal Australasian College of Surgeons (FRACS), full registration with the Australian Health Practitioner Regulation Agency (AHPRA) and post FRACS fellowship trained if wanting to provide cochlear implantation.

To discuss your requirements, fees or for a tour of the premises please call:
