Change a Life auction

The Change a Life Auction gives you the power to personally change the life of someone with hearing loss. By reuniting someone with their ability to hear, we get to hit the reset button on their life, allowing them to be the parent, the grandparent, the worker, the friend, the partner, and the student they want to be.

Every year, Ear Science Institute Australia's audiologists identify people within our community who would greatly benefit from receiving a device but are unable to access one without assistance.

This year, five state-of-the-art hearing devices will be gifted to five deserving people in our community to connect them with their world and give them the Gift of Hearing.

Generously supported by Sonova.

All Change a Life donations are tax-deductible.
