

Transforming hearing health care by enhancing candidate identification & referral for **cochlear implants.**

Only 1 in 10 adults in Australia who could benefit from a cochlear implant gets one.

Are you a potential cochlear implant candidate, their friend or partner, an audiologist, or a hearing healthcare provider/GP who works with potential cochlear implant candidates?

You may be eligible to participate in a focus group to help design a tool to improve candidate identification and referral for cochlear implants.

What's involved?

One focus group of 60-90 mins

Where?

EITHER In-person: Ear Science Institute Australia Boardroom, Level 2, 1 Salvado Road, Subiaco WA (parking permits can be provided)

OR Online: via videoconference
